OVERVIEW OF PRACTICES	

Introduction

Centre for Environment, Technology and Development, Malaysia (CETDEM) was founded in 1985. CETDEM is an independent, non-profit, training, research, consultancy, referral, and development organization. It is committed to improving environmental quality through the appropriate use of technology and sustainable development.

Activity

- Promotion of compost making

The centre encourages public to recycle their kitchen/garden waste into compost and use them to grow vegetables/fruits/flowers. It also conducts regular public talks on organic farming and demonstrations on composting.
